Weekly Stock Options

Product factsheet | November 2025

Weekly Stock Options are designed to provide investors with a flexible and efficient tool to manage their equity exposure. As the first weekly single stock options launched in Asia, they complement HKEX's existing options suite, offering a new way for investors to hedge risks and capitalise on market opportunities.

Features

Capital-Efficiency	Relatively lower option premiums resulting from shorter time to expiry
Precision	A precise hedge for short-term and time-specific risks
Flexibility	Flexibility to select shorter time intervals for market exposure, without taking longer-dated risks
