SCHEDULE 1

The principal risk factors that may affect the ability of the Issuer to fulfil its obligations in respect of the Notes are discussed under "Risk Factors" in the Offering Circular. In addition, the section "Risk Factors" in the Offering Circular shall be supplemented with the following:

RISK FACTORS RELATED TO NOTES BEING ISSUED AS TRANSITION BONDS

The Notes being issued as transition bonds may not be a suitable investment for all investors seeking exposure to transition or other equivalently-labelled assets

Ernst & Young Hua Ming LLP has been engaged by the Bank to examine the assertions in "*Description on Bank of China Limited, Hong Kong Branch's 2021 Transition Bonds*" in Schedule 3, and has expressed a limited assurance conclusion on such description (the "**Attestation Report**").

The *Description on Bank of China Limited, Hong Kong Branch's 2021 Transition Bonds* is prepared in accordance with the *Climate Transition Finance Handbook 2020* published by International Capital Market Association (the "**ICMA**"), in alignment with the four pillars of relevant ICMA principles as well as in consideration of the climate change mitigation transition activity classification as defined in the *TEG Final Report on the EU Taxonomy* and including the principles of "*Avoidance of Carbon Lock-in*" and "*Do No Significant Harm*".

The Attestation Report is not incorporated into and does not form part of this Pricing Supplement. The Attestation Report and Management Statement are not a recommendation to buy, sell or hold securities and are only current as of their respective dates of issue and are subject to certain disclaimers set out therein. Furthermore, the Attestation Report is for information purposes only and none of the Issuer, the Bank, Ernst & Young Hua Ming LLP or the Managers accepts any form of liability for the substance of the Attestation Report and/or any liability for loss arising from the use of the Attestation Report and/or the information provided in it.

Whilst the Issuer and the Bank have agreed to certain obligations relating to reporting and use of proceeds as described under "*Description on Bank of China Limited, Hong Kong Branch's 2021 Transition Bonds*" in Schedule 3, it would not be an Event of Default under the Terms and Conditions of the Notes if (i) the Issuer or the Bank were to fail to comply with such obligations or were to fail to use the proceeds of the issue of the Transition Bonds in the manner specified in this Pricing Supplement and/or (ii) the Attestation Report issued in connection with such Transition Bonds were to be withdrawn. Any failure to use the net proceeds of the issue of the Transition Bonds in connection with transition or other equivalently-labelled projects, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Transition Bonds, may affect the value and/or trading price of the Transition Bonds, and/or may have consequences for certain investors with portfolio mandates to invest in transition or other equivalently-labelled assets.

None of the Issuer, the Bank or the Managers makes any representation as to the suitability for any purpose of the Attestation Report or whether the Transition Bonds fulfil the relevant environmental criteria. Each potential purchaser of the Transition Bonds should (i) have regard to the relevant projects and eligibility criteria described under "*Description on Bank of China Limited, Hong Kong Branch's 2021 Transition Bonds*" in Schedule 3 and (ii) determine for itself the relevance of the information contained in this Pricing Supplement regarding the use of proceeds, and its purchase of any Transition Bonds should be based upon such investigation as it deems necessary. The Attestation Report and the Management Statement have been made available to investors on the Bank's website (<https://www.boc.cn/en/investor/ir10/>).

SCHEDULE 2

The Offering Circular is hereby supplemented with the following information, which shall be deemed to be incorporated in, and to form part of, the Offering Circular. Save as otherwise defined herein, terms defined in the Offering Circular have the same meaning when used in this Schedule.

SCHEDULE 3

DESCRIPTION ON BANK OF CHINA LIMITED, HONG KONG BRANCH'S 2021 TRANSITION BONDS

The Bank has prepared *Bank of China Limited Transition Bonds Management Statement* (the “**Management Statement**”). This Management Statement has been prepared to demonstrate the Bank will issue transition bonds (“**Transition Bonds**”) (A) in accordance with the *Climate Transition Finance Handbook (2020)* published by International Capital Market Association (the “**ICMA**”), (B) in alignment with the four pillars of relevant ICMA principles (for example, ICMA Green Bond Principles 2018 (GBP)), and (C) as well as in consideration of the climate change mitigation transition activity classification as defined in the *TEG Final Report on the EU Taxonomy*, and including the principles of “*Avoidance of Carbon Lock-in*” and “*Do No Significant Harm*”, to finance and/or refinance eligible transition projects which are in line with strategic pathways of carbon neutrality goals and strategies of the countries and regions the projects are located in.

For Transition Bonds issued under this Management Statement, the Bank will perform climate transition finance-related disclosures in accordance with *ICMA Climate Transition Finance Handbook (2020)* and in alignment with the four pillars of relevant ICMA principles (Use of Proceeds, Project Evaluation and Selection, Management of Proceeds and Reporting).

I. Climate Transition Finance-related Recommended Disclosure

In order to raise market awareness of the “Bank’s Green and Low-carbon Finance” strategy which includes transition finance, relevant internal governance and management, business achievement, applicable credit policy and planning in the future, information disclosure planning and, as a financial institution, the Bank’s credit service mechanism for helping corporate clients to achieve decarbonisation strategy and targets, the Bank has considered below four disclosures in accordance with the *Climate Transition Finance Handbook (2020)* disclosure recommendation:

1. Climate Transition Strategy and Governance;
2. Business Model Environmental Materiality;
3. Climate Transition Strategy to be Science-based including Targets and Pathways; and
4. Implementation Transparency.

II. Use of Proceeds

The Bank shall select eligible projects set out in the Management Statement in consideration of climate change mitigation transition activity classification as defined in the *TEG Final Report on the EU Taxonomy*, including the two principles of “*Avoidance of Carbon Lock-in*” and “*Do No Significant Harm*” and relevant measurable quantitative indicators as thresholds (if applicable), together with the list of “*Explicitly Excluded Projects*”. The proceeds raised from Transition Bonds will be used for financing and/or refinancing of eligible projects.

III. Project Evaluation and Selection

Based on the project compliance documents and referring to criteria and standards of eligible project categories defined in the Management Statement, the Bank’s domestic and overseas branches shall conduct preliminary screening of eligible projects, to form the list of nominated projects and submit to the headquarters for further review.

The Bank’s headquarters shall review each of the nominated projects, and then submit to professional third party agencies for an independent assessment. Approval will be granted to nominated projects certified by the professional third party agencies. The approved projects will form the eligible project list (“**Eligible Project List**”).

The Bank's headquarters shall review the Eligible Project List on a quarterly basis and determine if any change(s) is necessary (for example, if a project has become ineligible due to amortization, prepayment, sale or other reasons). If such change(s) is necessary, the headquarters shall organise domestic and overseas branches to nominate new projects and approve the eligible ones to replace projects that have become ineligible due to amortization, prepayment, sale or other reasons.

IV. Management of Proceeds

Prior to the issuance of the Transition Bonds, the Bank shall develop the preliminary Eligible Project List to ensure that proceeds raised from the Transition Bonds can be allocated to the eligible projects.

The Bank shall record the source and allocation of proceeds in a separate ledger management system to ensure that the proceeds of the Transition Bonds are properly managed and used. The ledger system shall contain information including but not limited to:

- transaction information (including but not limited to issue amount, coupon, issue date and maturity date, etc.); and
- proceeds allocation information (including but not limited to project name, borrower description, project category, balance, release date, repayment date, exchange rate, interest rate of the loan, etc.).

The Bank shall review and update the ledger on time. Any proceeds allocated to the projects that have been amortized, prepaid, sold or otherwise become ineligible due to other reasons shall be reallocated to newly nominated and approved projects.

Unallocated proceeds shall not be invested in greenhouse gas intensive, highly polluting, energy intensive projects nor projects with negative social impacts (including but not limited to "*Explicitly Excluded Projects*"). The unallocated proceeds could be temporarily invested in green bonds or transition bonds issued by non-financial institutions in domestic or international capital markets, and in money market instruments with good credit ratings and market liquidity, or kept in cash until they are allocated to eligible projects.

V. Reporting

The Bank will make disclosure in relation to the eligible projects' proceeds allocation and environmental impacts on an annual basis on the official website (<http://www.boc.cn/en/investor/ir10/>) when the Transition Bonds remain outstanding. The contents to be disclosed annually include but not limited to:

1. annual report of the Transition Bonds, where the content includes but not limited to the following proceeds allocation and environmental impacts information:
 - a brief description of the eligible projects where the proceeds were allocated, and breakdown in terms of amount and percentage allocated to each of the categories;
 - the unallocated proceeds and how they are invested temporarily;
 - appropriate case information of the selected eligible projects; and
 - the environmental benefits of each category of the eligible projects where the proceeds were allocated.
2. an attestation report for the annual report issued by a qualified third party; and
3. an attestation report for the use of proceeds issued by a qualified third party.

The following tables set forth certain information about the expected loan size breakdown of the projects in the existing list. However, since the total loan amount of the projects in the existing list is greater than the aggregate principal amount of the Transition Bonds described in this Pricing Supplement, and the balances of the loans of the projects in the existing list are subject to changes such as disbursements, amortisation and

prepayment, it is likely that the actual Eligible Project List to which the proceeds of the Transition Bonds will be allocated will be different from the existing list.

The following sets forth certain information of sample eligible projects:

- A Natural Gas based Cogeneration Project located in Ningxia Hui Autonomous Region of China. The project is equipped with 4×200MW level gas-steam combined cycle cogeneration units with a total natural gas consumption of about 10.705×10^8 Nm³/year. The project will generate 4.72×10^6 MWh electricity annually and supply steam 5.76×10^6 GJ annually, which will result in the CO₂ emissions reduction of about 116,338 tons/year, calculated based on the UNFCCC CDM methodology AM0107 *New natural gas based cogeneration plant*. Carbon emission from nature gas of this project is about 55.65 tons CO₂/TJ, which is 23.6% below the national average of 72.8 tons CO₂/TJ according to *International Energy Agency-Data and statistics*, which is available at: <https://www.iea.org>.
- A Waste Heat Recovery and Power Generation Project at Cement Plant located in Shaanxi Province of China. The project is equipped with a pure low-temperature waste heat recovery and power generation system with the installed capacity of 15 MW on one clinker line. The project will deliver 76,170 MWh electricity annually through recovering and utilizing the waste heat from the clinker line, which will result in the CO₂ emissions reduction of about 47,175 tons/year, calculated based on the UNFCCC CDM methodology ACM0012 *Waste energy recovery*. Energy consumption of cement clinker production in this project is about 93 kg standard coal/ton, which is 11.4% lower than the 2020 target value of 105 kg standard coal/ton as defined in “13th Five-Year Comprehensive Work Plan for Energy-saving and Emission Reduction” issued by State Council of China.
