

HKEX IR Connect.

Linking Capital with Opportunities

An accessible, professional and cost-effective way to build connectivity and regular dialogue with your stakeholders.

Three ways to identify, target and engage investors

Users may access IR information provided by HKEX, S&P Global Market Intelligence and other third-party contributors¹ in one of three ways:

1. **Public IR Connect Profile.** Free web access to listed companies' corporate profiles and market data with no sign-up required.
2. **Private IR Connect Profile.** Listed companies can sign up online, receive login details and then enjoy free access to shareholder analysis, market data, key stock statistics and research ratings.
3. **Direct Subscription.** Listed companies requiring more data can obtain a direct subscription for data services from third-party vendors such as S&P Global Market Intelligence. Users who sign up for an additional data subscription through HKEX's IR Connect platform may obtain a price discount. HKEX does not offer additional data products through IR Connect, nor does it have any commercial interest in the sale of subscriptions to third-party services.

What to expect

Each level of service provides access to a wide range of information. As the portal develops, we hope to increase the selection of data available to users.

Public IR Connect Profile

- Track market performance, chart indices and view the top 10 market movers.
- Review listed companies' profiles, financial reports, announcements, price performance and volume activity.

Private IR Connect Profile

- Assess a company's financial strength by reviewing its profile, fundamental data, earnings performance vs estimates, research ratings, announcements and news.
- Create price performance and volume activity charts and customise styles, timeframes, benchmarks and more with a wide range of options.
- Assess holdings of the top 10 institutional investors by region and style and the top 10 investing funds, plus view the top 10 buyers and sellers.
- Evaluate corporate ownership, along with peer competitors and their shareholders.

¹ Third-party contributors include FactSet, Morningstar® Research and MT Newswire.

Let IR Connect help you capitalise on market-leading data, insights and technology to take your IR outreach to a new level. Access the portal at <http://irconnect.hkex.com.hk>.
