Tailor-Made Combination (TMC)

Options Strategy in One Price

Tailor-Made Combination (TMC) is a new trading function provided by the Genium INET Platform* to execute option strategies.

The new TMC function covers Futures and Options of Hang Seng Index, Mini-Hang Seng Index, H-Shares Index as well as Single Stock Options. TMC is also expected to bring narrower spread on option strategy construction.

Investors and traders not only can make combination trades more efficiently with execution certainty, trading option strategies can attain more efficient use of capital as compared to single-leg strategies^.

^ Net margining account required

Why TMC?

- **One Net Price**
Users can create combinations with up to FOUR legs and place orders with one net price
- **Auto-Matching**
TMC orders will be ranked and matched by HKATS automatically according to price/time priority
- **Quote Request**
Users can send quote requests for a TMC
- **Certainty of Execution**
Option strategy order will be executed only if all legs are simultaneously executed with no risk of any failed legs
- **Versatile Facility for Rollover & Hedging**
Rollover and hedging can be done more easily and efficiently

How to enter a TMC order?

For example, to enter an order for a risk-reversal strategy as below :

Buy 1 HSI22600I3 at 140 (Buying Sep HSI 22600 Call)

Sell 1 HSI22000U3 at 150 (Selling Sep HSI 22000 Put)

Price for buyer of this strategy : -10 points (Receive 10 points)

Price for seller of this strategy : 10 points (Pay 10 points)

Exchange Participants are requested to note that negative premium may arise for a strategy even though it is created from a buyer (long) perspective.

ID	TSS	ISS	Combo Bid	BQty	Bid	Ask	AQty	Combo Ask
TMC_HSI/005	OPEN		(B 1) HSI22600I3 (S 1) HSI22000U3	40	-10			(S 1) HSI22600I3 (B 1) HSI22000U3

* Genium INET Platform is the latest upgrade of HKATS, the derivatives market trading system. It results in significantly higher trading and clearing capacities, as well as ultra-low order processing latency over its predecessor.

Prescribed TMC Strategies

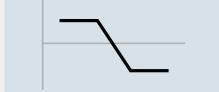

The Exchange will notify Exchange Participants from time to time a list of prescribed strategies for TMC. Please note that the Exchange reserves the right to delete any TMC orders if it is not one of the prescribed strategies or is not created as described below.

Risks of Trading Futures and Options

Futures and options involve a high degree of risk. Losses from futures and options trading can exceed your initial margin funds and you may be required to pay additional margin funds on short notice. Failure to do so may result in your position being liquidated and you being liable for any resulting deficit. You must therefore understand the risks of trading in futures and options and should assess whether they are right for you. You are encouraged to consult a broker or financial adviser on your suitability for futures and options trading in light of your financial position and investment objectives before trading.
