User Guide

User Guide for the Index Searching of the Auto-Run CD

1. **The Auto-run CD of Listing Companies Information will start the searching program when the CD is inserted into the CD slot.**

2. **For those CD ROM with the auto-run function stopped, the user needs to open the file index.htm (** Index.htm **) to start the searching program.**

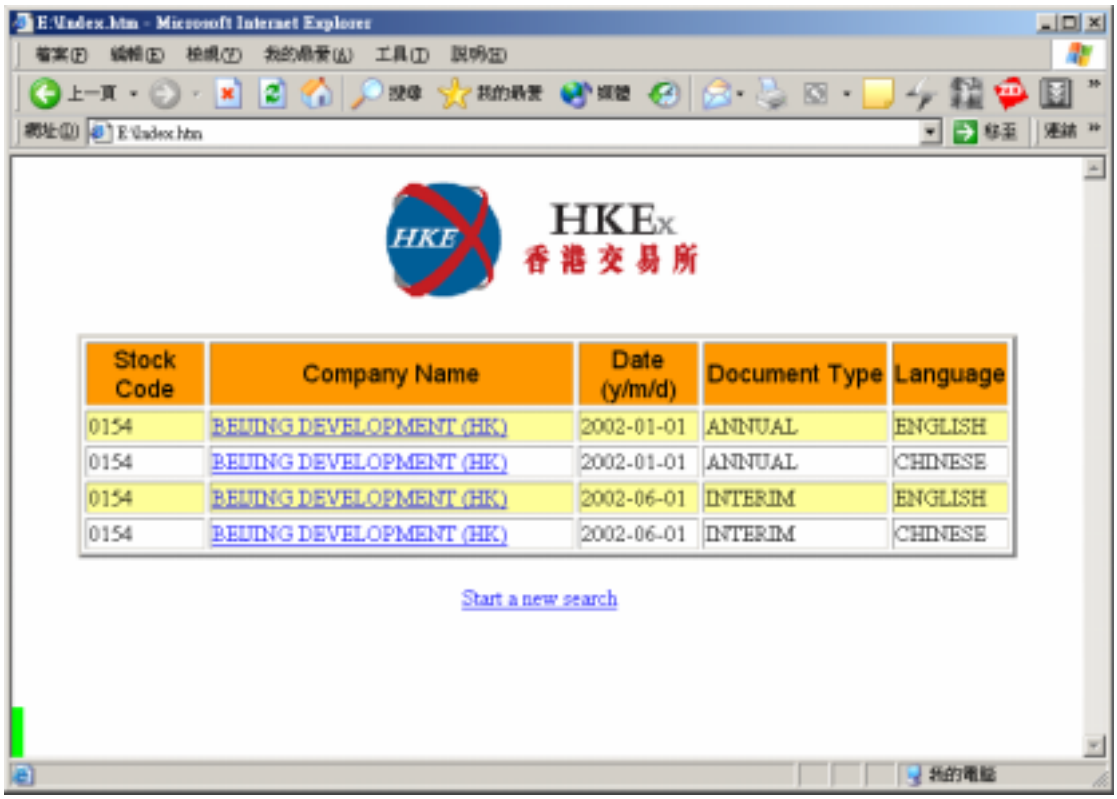

3. **To search by stock code, simply enter the stock code in the space provided and then click on the** Search **button.**

4. **To search by company name, expand the company name list by clicking on the down arrow** 139 HOLDINGS **first and then select from the list. You can type a character in the Company Name box. The first company with the name beginning with that character will return. E.g. if you presses "B" in the Company Name box then expands the company name list, the name list will start from B.. for selection.**

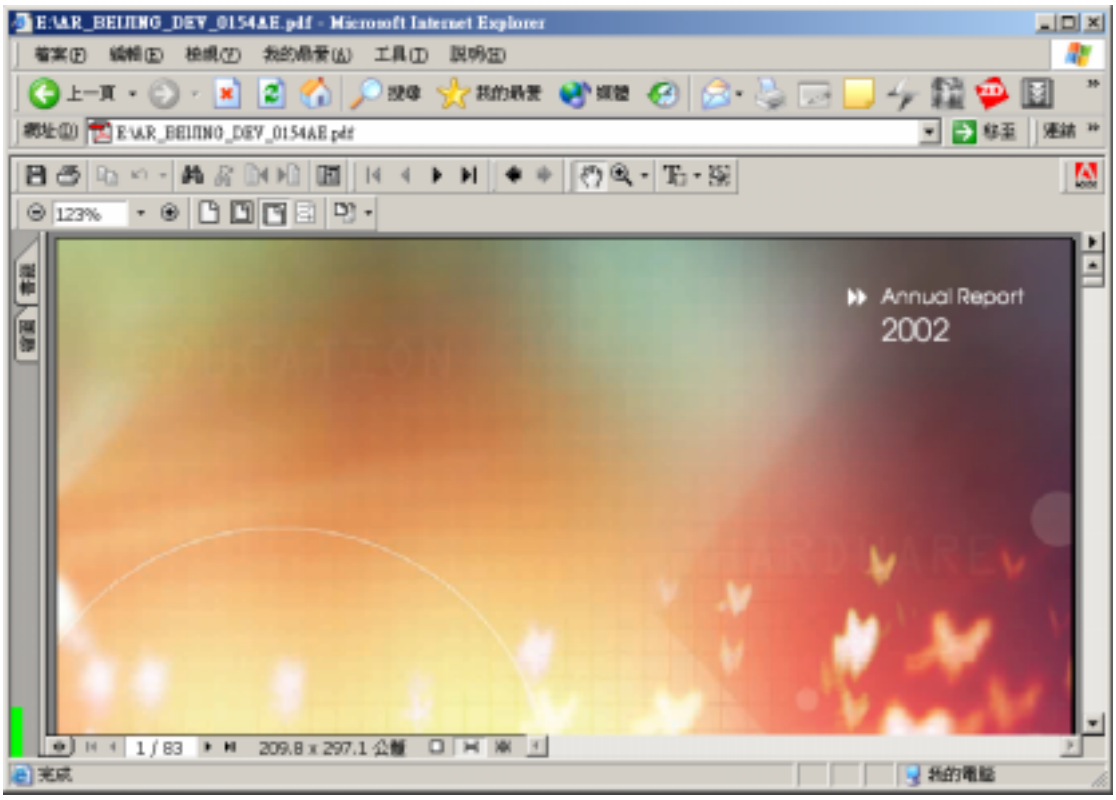

5. **Upon a click on the** Search **button, the searching result page will be displayed:**

6. **To open a document for viewing, simply click on the company name of the document.**

Stock Code	Company Name
0154	BEIJING DEVELOPMENT (HK)
0154	BEIJING DEVELOPMENT (HK)

7. **The selected PDF file will be opened for viewing:**

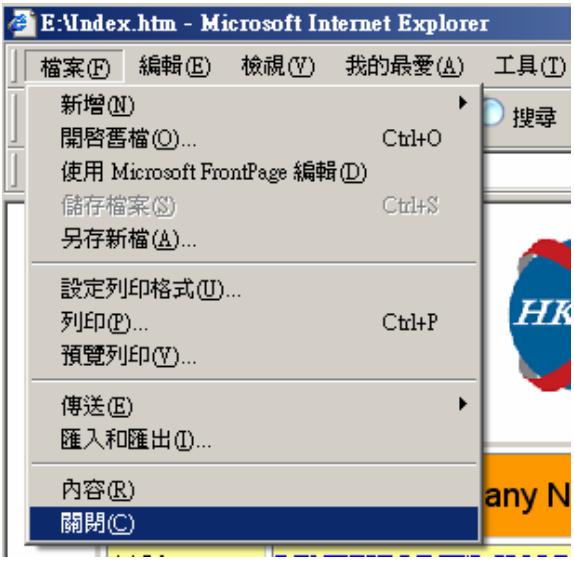

(The icon Get Adobe Reader **at the left bottom corner is the link to the download site for Acrobat Reader)**

8. **After viewing the selected PDF file, you can click on** 上一頁 **to get back to the result page for another selection of file.**

9. **You can select another PDF file to view by repeating STEP 6, or start a new search by clicking on** Start a new search **. This will return to the index page illustrated in STEP 2.**

10. When you have finished the file viewing, you can close the searching program by clicking on or selecting “Close(C)” from the File menu.

The searching program system requirement :
Windows Operating System from Win 95 to Win XP in English and Chinese.
With the install of Internet Explorer 5.X or 6.X. and Adobe Reader.
