The Exchange is pleased to announce that since the launch of HKEx Orion Central Gateway (OCG) in June 2014, most Exchange Participants (EPs) have migrated their OGs to OCGs.

OG will not be supported and will be retired two years after the launch of OCG, i.e. June 2016. In order to save EPs' system development and testing effort, with immediate effect, OG will not be upgraded for any AMS changes which are planned to take effect after June 2016 (including the announced Volatility Control Mechanism (VCM) and Closing Auction Session (CAS)). For EPs still using OG, they are reminded to migrate to OCG as soon as practicable. EPs not planning to migrate to OCG will be notified individually to de-install their OGs in due course.

For any enquiry on OG migration arrangement, please email to [AMS3Info@hkex.com.hk](mailto:AMS3Info@hkex.com.hk).
