1. Do you support the revision of the current model with the introduction of a three-tier system with a review mechanism for HKEX's stock option position limit to address the issues with the existing regime?

Yes

No

Please give reasons for your view.

The one size fits all nature of the current position limit model and lack of review mechanism hampers the ability to react/adjust to market conditions and corporate events.

2. Do you agree the implementation of the proposed model (three-tier system with review mechanism) would be an important step in enhancing Hong Kong's stock options market and increasing its competitiveness?

Yes

No

Please give reasons for your view.

The proposed new model should give enhanced liquidity, provide for a greater range market and corporate events and enhance portfolio hedging functionality.

3. Do you have any comments on the proposed model? Please give reasons for your view.

Please see above.
