Data structure – present (from June 2006)

The data provided in Bid and Ask Record – All Futures/Options are presented in 3 types of files:

- 1) Bid and ask data file;
- 2) Product master file; and
- 3) Contract master file.

The bid and ask data file is the core data file, while the latter two files provide static information on each contract covered in the bid and ask record file. For convenient data retrieval, the data files are provided in both fixed length text (.txt) and comma separated values (.csv). These 2 files only differ in format, but identical in data contents.

The data files are zipped into a single file for delivery. The following table lists out the data files to be found within the zipped file:
