HKEx Begins Rollout of Orion Market Data Platform

Hong Kong Exchanges and Clearing Limited (HKEx) rolled out the first phase of its Orion Market Data Platform (OMD), one of the HKEx Orion technology initiatives, today (Monday) with the introduction of the new system in its securities market.

OMD provides low-latency market data and allows HKEx to disseminate a range of datafeed products with different content and other features to meet the varying needs of information vendors, Exchange Participants and investors.

In conjunction with today's rollout, HKEx launched new historical securities and derivatives data products for subscription, including its new Historical Full Book (Securities Market) product that allows subscribers to download complete order book information for every order and trade of HKEx's Main Board and Growth Enterprise Market, or GEM, shares from today onwards. The enhanced historical data products provide further support for trading in HKEx's markets and market research.

The next phases of OMD, tentatively scheduled for rollout in the first half of next year, will extend direct distribution of HKEx market data to Mainland China through HKEx's Mainland Market Data Hub (MMDH) and then use OMD for HKEx derivatives market data.

“The launch of OMD marks the first major step in the rollout of new platforms under our HKEx Orion technology initiatives,” said HKEx Chief Executive Charles Li. “OMD is a transformative system because it equips us to extend direct distribution of our market data to the Mainland.”

During a two-week stabilisation period that began today, OMD users are retaining their previous market data source as a backup. After the stabilisation period, the main market data source previously will be kept running in parallel with OMD for a short period to support the smooth migration of information vendors' downstream services.

香港交易所開始推出領航星市場數據平台

香港交易及結算所有限公司（香港交易所）今天（星期一）在旗下證券市場推出領航星市場數據平台（Orion Market Data Platform，OMD），OMD的第一階段運作正式開始。OMD為香港交易所領航星技術計劃的其中一環。

OMD提供低時延市場數據，透過此平台，香港交易所可發布多種不同內容及特點各異的數據傳輸專線產品，以配合資訊供應商、交易所參與者及投資者的不同需要。

與此同時，香港交易所亦推出全新的證券及衍生市場歷史數據產品，其中包括全新的《歷史全盤數據 - 證券市場》。訂購這產品的用戶從今天起可下載記有香港交易所主板及創業板股份所有買賣盤及成交的完整紀錄資料。香港交易所相信，新歷史數據產品可進一步支援就香港交易所旗下市場及相關交易情況的研究。

OMD的下一階段暫定明年上半年推出，屆時將會通過香港交易所設於內地的市場數據樞紐，直接把香港交易所的市場數據向內地發布，及後香港交易所旗下的衍生產品市場數據亦會經OMD發布。

香港交易所集團行政總裁李小加說：「OMD是香港交易所領航星技術計劃下首項推出的新技術平台。OMD將使香港交易所能夠直接向中國內地發布市場數據，從而革新市場面貌。」

從今天起的兩周為OMD推出後的穩定期，其間OMD用戶將保留此前的市場數據供應來源作後備。穩定期完結後，先前的主要市場數據供應來源將繼續與OMD並行運作一段短時間，以使資訊供應商提供的各項下游服務能順利過渡。
