Mainland Market Data Hub (“MMDH”) Secondary Data Centre Relocation – Circuit Line Test Schedule

With reference to our Client Notice issued on 30 April 2025 (Our Ref: [MDD/25/194](#)) regarding the Mainland Market Data Hub (“MMDH”) Secondary Data Centre Relocation, the testing environment will be open and available for Clients and your selected network carriers to conduct a Circuit Line Test in July 2025.

Please refer to the details in the table below:

Items	Details
Circuit Line Test Scope	<u>Network ping test only</u> (i.e. MMDH server will <u>not</u> be available for testing)
Available Testing Dates	5 July 2025 (Saturday) 12 July 2025 (Saturday) 26 July 2025 (Saturday)
Available Testing Time	Between 09:00 and 18:00

Clients, who plan to conduct the Circuit Line Test mentioned above, are required to coordinate with your selected network carrier for the network reconfiguration before the participation. Upon the completion of the test, Clients should also remind your selected network carrier to fallback the network configuration to the existing MMDH DR data centre.

In addition, for the power requirement in the new MMDH DR data centre, Clients are reminded that a dual power supply is highly recommended to be used for your equipment in order to avoid a potential single point of power supply failure.

Please confirm us your selected date(s) of the Circuit Line Test and your selection of the power supply (Dual / Single Power) by submitting us an [Online Feedback Form](#) **by 30 June 2025 (Monday)**. Support for the Circuit Line Test to the new MMDH DR data centre will be arranged on your selected test day(s) upon your submission of the online feedback form.

Should you have any queries, please contact us at (852) 2211 6558 or send your questions to IVSupport@hkex.com.hk.
