Post Release Test for Introduction of HKEX Artificial Intelligence Indices and HKEX Semiconductor Indices in OMD Index Datafeed

Date: 14 November 2026 (Saturday)
Systems: OMD-Index and MMDH-Index

14 November 2026 (Saturday)			
Time (HKT)	**Activity**	**Action – for Participating Clients**	**Expected Observation**
08:30	OMD-Index and MMDH-Index ready for logon	• To establish connection to OMD-Index on Primary Site to receive index messages from multicast channels (both real time and refresh channels) • To verify the connectivity to OMD-Index retransmission servers • To connect to MMDH-Index on Primary and/or DR Site	• Index Definition (70) and heartbeat messages are disseminated in all index multicast channels “40”, “41” and “42” • Only Previous Session Close index values are provided via Index Data (71) messages in index multicast channel “40” • Only heartbeat messages are disseminated in index multicast channel “43” • All of the 4 OMD-Index retransmission servers are available for Clients to connect
09:00 – 11:00	Connectivity Verification	• To check if the heartbeat messages could be received from all index multicast channels, “40”, “41”, “42” and “43”	• Only heartbeat messages are disseminated in index multicast channels “40”, “41”, “42” and “43”
11:00	Test Completed	• Clean all test messages disseminated during the testing period	
Result Confirmation is NOT required			

Important Notes to Clients:

1. For fault reporting, please call our Connectivity Project & Support Hotline at (852) 2211 6558 during the Post Release Test, or (852) 9183 8966 after 11:00 on the day of Post Release Test.

2. All messages disseminated during the testing period should be treated as non-production data and should be cleaned after the Post Release Test.

3. In any case, all participating Clients should complete the appropriate day-end works including file / database backup, system restoration / fallback and etc. before, during and / or after the Post Release Test.

4. Contingency Arrangements on Typhoon, Extreme Conditions and Rainstorm Warning on the day of the Post Release Test:

    a. In case Typhoon Signal No. 8 or above or Extreme Conditions or Black Rainstorm Warning is issued/ announced or continues to be in force anytime from 6:30 to before 8:30 on the day of Post Release Test, the Post Release Test will be cancelled and will not be resumed for the rest of the day.
    b. In case Typhoon Signal No. 8 or above or Extreme Conditions is issued on or after 08:30 on the day of Post Release Test, the Post Release Test will be terminated 15 minutes thereafter.
    c. In case Black Rainstorm Warning is issued on or after 08:30 on the day of Post Release Test, the Post Release Test will continue until completion.
    d. In any case, all participating Clients should complete the appropriate day-end works including file / database backup, system restoration / fallback and etc. before, during and / or after the Post Release Test.
