Part B – Order Book Building

During the same session as Part A, OMD disseminates Order Book messages (i.e. Add/Delete Order (SF only), Add/Delete Odd Lot Order, Aggregate Order Book Update (SS and SP only) and Broker Queue) with various order activities. The full order book (for SF) and aggregate order book for the top 10 best bid and offers, or “10BBO” (for SS and SP) as at the end of this practice session are provided for each of the practice cases below. Clients are required to verify the respective order book recorded in your system matches against the results in this answer book.

For each practice case below, please put a tick (✓) in the box for each order book entry where your system records the same details as the expected details.
