Arrangement of HKEX Orion Market Data Platform – Securities Market (OMD-C) and Mainland Market Data Hub (MMDH) for Enhancement of Settlement Arrangement for Multi-counter Eligible Securities

With reference to the enclosed Exchange Circulars from the Stock Exchange of Hong Kong Limited (“SEHK”) and Hong Kong Securities Clearing Company Limited (“HKSCC”) (Ref: [CT/066/24](#) and [CD/OES/CCASS/024/2024](#)), there will be an enhancement of the settlement arrangement for Multi-counter Eligible Securities in Central Clearing and Settlement System (“CCASS”) by adopting a single tranche multiple counter arrangement (the “Enhancement”). The Enhancement will come into effect in the first half of 2025 tentatively, subject to regulatory approval and market readiness.

There will be no changes in the existing trading arrangements where separate trading counters with different and unique stock codes will still be available as per the existing arrangement for Multi-counter Eligible Securities. As such, the OMD-C and MMDH messages related to order book, trade and price, and statistics data will not have any interface changes.

Nevertheless, in order to provide the information of the relationship between the domain settlement counter (i.e. stock) and other currency settlement counter, a new message field will be introduced in the existing Security Definition (11) message in OMD-C and MMDH. Accordingly, the OMD-C Interface Specification and MMDH Interface Specification will be updated for the aforementioned change and will be provided along with the implementation schedule in due course.

For the settlement and trading arrangement details of the Enhancement, please refer to the enclosed Exchange Circulars.
