Mainland Market Data Hub (“MMDH”) Secondary Data Centre Relocation – Post Release Test and Launch

With reference to our Client Notices issued on 30 April 2025 (Our Ref: [MDD/25/194_C](#)) and 20 June 2025 (Our Ref: [MDD/25/305_C](#)) regarding the Mainland Market Data Hub (“MMDH”) Secondary Data Centre Relocation, the launch arrangement of the secondary (“DR”) data centre relocation is arranged as below:

Activity	Schedule	Participation (Direct Connection MMDH Clients)
Post Release Test (“PRT”)	23 August 2025 (Saturday) <i>From 10:00 to 16:30 (Tentatively)</i>	Mandatory
Production Launch	25 August 2025 (Monday)	Applicable

Before the production launch on 25 August 2025 (Monday), a PRT is scheduled for 23 August 2025 (Saturday) and data centre failover scenario will be simulated during the PRT. All MMDH server IP addresses in the new MMDH DR data centre will be the same as the existing MMDH DR data centre.

All MMDH Clients are reminded to liaise with your selected network carrier and ensure the network reconfiguration will be completed by the network carrier before the start of the PRT. In addition, please arrange sufficient resources to support and troubleshoot the system and network issues, if any, on the PRT day.

To confirm the participation in the PRT, please complete the [Online Test Participation Form](#) **on or before 8 August 2025 (Friday)**. The test rundown of PRT will be provided to the participating clients by 15 August 2025 (Friday).

Upon the successful completion of the PRT, the existing MMDH DR data centre will be disabled, and the new DR data centre will be enabled on the same day.

In case there is an unexpected incident that happened before the PRT to impact the launch, Clients will be notified by email to execute the system and network configuration fallback procedures, if needed.

Should you have any queries, please contact us at (852) 2211 6558 or send your questions to IVSupport@hkex.com.hk.
